

Anne-Marie Russell

London / UK.

Current position - Anne-Marie Russell is a NIHR BRC and Imperial Health Charity post-doctoral clinical researcher at Imperial College Healthcare Trust (ICHCT). She has recently been accepted onto the NIHR's 70@70 leadership programme as a senior nurse researcher.

Anne Marie previously worked at the Royal Brompton hospital (RBH (2010 -2018)) as a clinical academic in Interstitial Lung Diseases. She holds an honorary contracts at RBH as a clinical research fellow and at Imperial College Healthcare Trust (ICHCT) as nurse consultant in ILD. Her strengths in providing mentorship are to support academic and research development.

Her doctoral research at Imperial College developed a patient-reported outcome measure for patients with idiopathic pulmonary fibrosis (IPF-PRoM© 2018 Imperial Innovations Ltd.). The 12-item IPF-PRoM is undergoing further validation in UK; US; Danish and South American IPF populations; it has been translated into several languages and is incorporated in an IPF App ©patientMpower. Further work includes the development and validation of an ILD specific Patient Reported Experience Measure (PREM) and testing the reliability of the Patient Activation Measure in people with ILD. Anne-Marie collaborates on international studies relating to fibrotic lung conditions and patient-centeredness including complementary approaches such as exploring the utility of singing techniques and mindfulness for breath management in patients with ILD.

Clinical Work - Anne-Marie completed her MSc with distinction in Advanced Practice and research methods in 2004 and is an assessor for the Royal College of Nursing accreditation of Advanced level Practice. She has over fifteen years' experience in non-medical prescribing. Anne Marie supports clinical innovations in service delivery at ICHCT, particularly relating to digital health initiatives.

Teaching - Anne-Marie attained her PGCE with distinction in 2005 and held university positions as a senior lecturer / lecturer teaching interdisciplinary Advanced Practice, non-medical prescribing and research methodologies and continues to teach on respiratory modules at London Southbank University. She has delivered international workshops in interdisciplinary and patient teaching in palliative care.

Public Service - Anne-Marie is the chair of the ILD Interdisciplinary network/UK; secretary to the European Respiratory Society nursing group in Assembly 9 and scientific committee member of the European Idiopathic Pulmonary Fibrosis & Related Disorders Federation.

Anne-Marie has been a member of the ATS since 2011 and has served on the program committee of the nursing Assembly since 2015. She was appointed program chair in May 2019. She has also served on the ATS Members in Transition & Training Committee (MITT) 2016-17 and on the ATS Awards Committee in 2016-2019. Anne Marie has delivered numerous talks at international meetings and supports patient information events facilitated by the IPF Charities in UK and Eire.

Anne Marie Chairs the Pan London and southeast regional nursing and interdisciplinary group which meets biannually. She is the author/co-author of numerous peer-reviewed publications on ILD which can be found at: https://www.researchgate.net/profile/Anne-Marie_Russell
